Bed #2	Agreeable Gray SW7029	standard	Alabaster SW7008	
Bed #3	Agreeable Gray SW7029	standard	Alabaster SW7008	
Hall Bath	Agreeable Gray SW7029	standard	Alabaster SW7008	Enamel vanity SW7008
Hand Rails	n/a	n/a	n/a	Traditional newel painted; square painted spindles; stain handrail
Mantel	n/a	n/a	n/a	Stain

***Standard paint includes 2 wall colors, 1 trim color and 1 stain color. Closets & Pantry will be painted the same color as the trim. Additional paints to be finalized and priced by your builder.**

Handrails, end caps and any stained trim (book cases, etc.) will be stained to match the cabinets as close as possible. An exact match is not possible due to varying types of wood, grain, etc. Many stains can show as "blotchy". It is the customer's responsibility to understand which stains will do this.

It is the responsibility of the customer/homeowner to verify the accuracy of the worksheets presented. Any changes you make could result in additional charges and could also cause a delay in the closing date. Total Design Tile & Flooring provides this packet as a free service to our customer/homeowner. However, we will not be accountable for the contents and accuracy as it pertains to countertops, stone, hardwood (not installed by TDT&F), and paint selections.

If homeowners select a natural stone product, it lacks uniformity and is subject to high variation in aesthetics (size, color, shade, finish, etc.). Since there is a high variation and no two tiles are exactly alike, the tile supplied for installation may not exactly match the sample board at TDT&F.

If homeowner wants hardwood floors to match cabinets they will be stained as close as possible. An exact match of any stained woodwork is not possible due to varying types of wood, grain, etc. It is the homeowner's responsibility to meet with the flooring company for a custom stain and understand which stains could have this effect.

We the customer/homeowner have read this statement and made the above selections and understand that any changes must be made in writing and within an appropriate amount of time for materials to be ordered and delivered.
